Top-down Squeeze-off Solutions

for 1/2" - 1" PE Pipe

Timberline TR170

Perfect for
Keyhole!

Innovative Tool Technology

TR170 Specifications

Top-down Squeeze-off Solution for 1/2" - 1" (12mm to 26mm) PE Pipe

Operates on multiple pipe size.

Effective on Pipe Size 1/2" CTS - 1" (12mm to 26mm) IPS

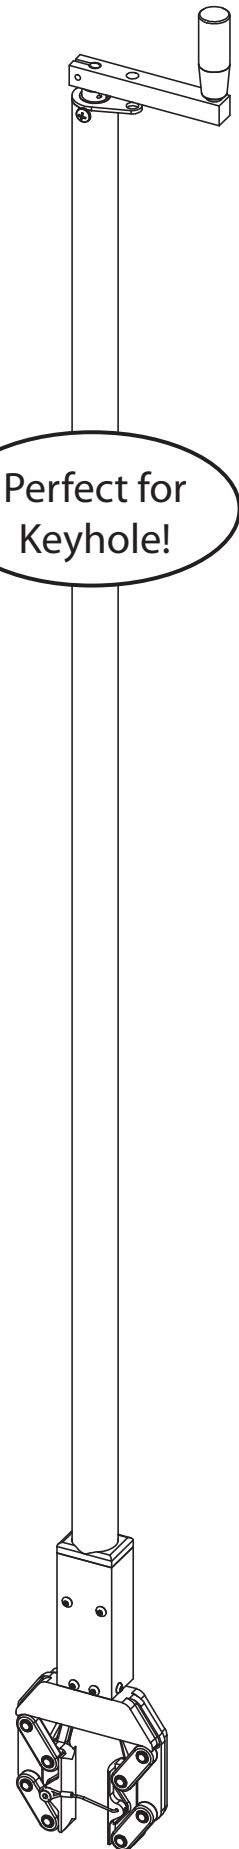

Timberline TR170

Long Handled Tool

Length:	6.5 ft	(2.0 m)
Width:	6.0 in	(15.2 cm)
Weight:	23.0 lb	(10.5 kg)

- Crank style handle allows operator to control squeeze-off and release rates, preventing pipe damage.
- Long handle keeps operator safely above ground – out of harm's way.
- Designed for top-down access – eliminating the need for under-the-pipe excavation.
- Engineered to automatically center pipe in the jaws.
- Light weight allows for manual placement and operation by one person.
- Precision-engineered, CNC-machined components ensure proper fit and long operating life.
- Made from aircraft grade aluminum alloys for high strength, corrosion protection and spark resistance.
- Crank effortlessly applies forces evenly to prevent permanent deformation in pipe walls.
- Jaw closure provides safe squeeze-off at 15% wall compression.
- Operates in keyhole / posthole
- Lock-out/Tag-out for operator safety
