# TR50 Specifications

## Top-down Squeeze-off Solution for 1/2" CTS PE Pipe

### Operates on 1 pipe size.

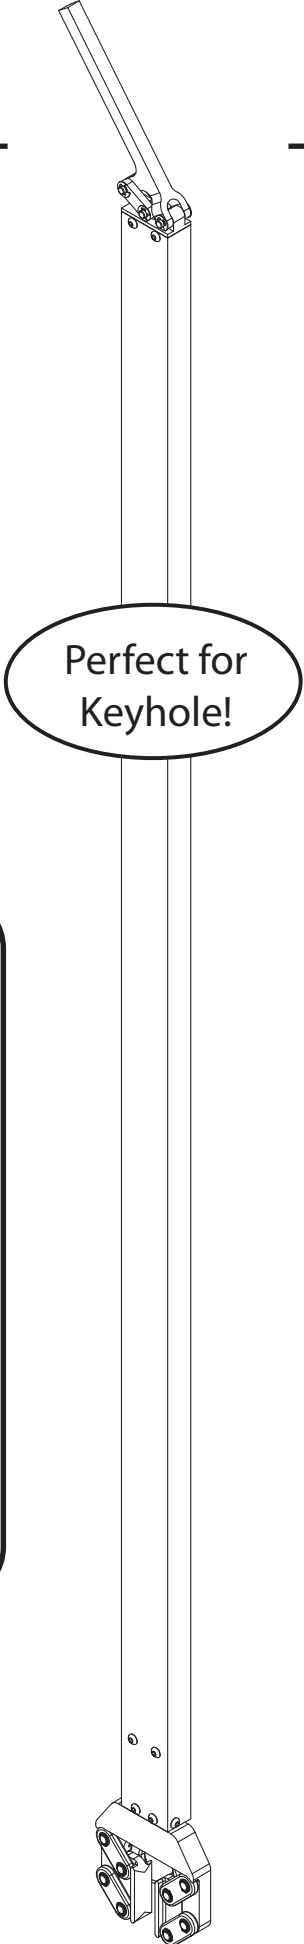

Effective on Pipe Size 1/2" CTS

### Timberline TR50

Long Handled Tool

Length: 6.5 ft (2.0 m)  
Width: 9.0 in (22.9 cm)  
Weight: 23.0 lb (10.5 kg)

- Switch style handle allows operator to control squeeze-off and release rates, preventing pipe damage.
- Long handle keeps operator safely above ground – out of harm's way.
- Designed for top-down access – eliminating the need for under-the-pipe excavation.
- Engineered to automatically center pipe in the jaws.
- Light weight allows for manual placement and operation by one person.
- Precision-engineered, CNC-machined components ensure proper fit and long operating life.
- Made from aircraft grade aluminum alloys for high strength, corrosion protection and spark resistance.
- Switch effortlessly applies forces evenly to prevent permanent deformation in pipe walls.
- Jaw closure provides bubble-tight squeeze-off at 15% wall compression.
- Operates in keyhole.
- "Lock-out/Tag-out" capability for operator safety

Perfect for  
Keyhole!
